

HANDOZER-DG™

PATENT PENDING

The Handozer Driveway Groomer Carbide Tooth Driveway Implement

The new **Handozer DG Driveway Groomer** by Handozer Distributing is an electrically or 3-Point operated drag that is designed to be user friendly and to prepare the best groomed gravel driveways! The **Handozer Carbide Tooth Drag** will maintain and level your gravel areas, while giving you total control of the working depth you demand. With the reversible and adjustable back leveling bar, the **Handozer DG** will level and maintain your landscape and more!

The design of **Handozer DG** side rails, tow hitch and 12 Vt. electric caster system work together to maintain the soil control you desire while providing an aggressive cutting action for the toughest of surfaces. The **Handozer DG** is a leveling implement for all your grooming & grading needs! The **Handozer DGE & 3P** are tough garden tractor, ATV, utility vehicle & tractor implements!

HANDOZER-D5-DGE™
