## The Handozer EQ Commercial Heavy Duty Commercial Equestrian Arena Drag

The new **Heavy Duty Commercial Handozer Equestrian Arena Drag** by **Handozer Distributing** is designed to be user friendly and to prepare the best possible footing in high use, ranch & equine center horse arenas. The **Handozer EQC** is easy to operate and handle at affordable prices. The **Handozer EQC** will maintain and level the footing in your arena, while giving you total control of the working depth you demand. With 3 rows of ripping teeth, 1st are rip shanks that are adjustable 1" up to 5" depths 2 & 3 are 3/4" x 12" harrow spikes set 4.5" on center! The leveling bar is adjustable & reversible and will also level the most uneven surfaces! The **Handozer EQC** works excellent in wet or dry conditions. The optional **EQC Paddle Wheel Roller** is made of heavy 3/8" steel. Good for clod busting and all synthetic footings!

The design of **Handozer EQC** side rails and wheel gauges help to maintain the depth control you desire while providing an aggressive cutting action for the toughest of surfaces. The **Handozer EQC** is also a leveling implement for all your grading needs! The **Handozer EQC** is two pieces of Tractor Implements for the price of one!

### Professional Arena Footings Made Easy!

The Heavy Duty Commercial Handozer Equestrian Arena Drag rips, levels and grooms your arena for the best possible footing at the controlled depth you desire!

**Paddle Wheel Roller**
