

HANDOZER-MGS™

PATENT PENDING

The Handozer MGSpike Multi Groomer Spike Tooth Harrow

The new Handozer MGS Equestrian Arena & Driveway Groomer by Handozer Distributing is a drag that is designed to be user friendly and to prepare the best possible footing for home, ranch & equine center horse arenas. The Handozer MGS is also durable enough to grade the roughest gravel driveways! The Handozer Multi Groomer Spike Tooth Harrow will maintain and level the footing in your arena or round pen, while giving you total control of the working depth you demand. The back leveling bar is reversible, adjustable and will also level and maintain your gravel drives and more!

The design of Handozer MGS side rails and tow hitch maintain the soil depth control you desire while providing an aggressive cutting action for the toughest of surfaces. The Handozer MGS is a leveling implement for all your grooming & grading needs! The Handozer MGS is two pieces of ATV, Utility Vehicle & Tractor Implements for the price of one!

HANDOZER-D5-MGS™
Tow-Behind Model

HANDOZER-D5-MGS-3P™
Three Point Model

3 POINT HITCH KIT

- Both category 1 and quick hitch compatible

Adjustable Leveling Bar

Handozer Side Rails

- Cuts the burm off the edge of the arena and levels it out
